

### **Montana MFP Methodology for Payment of Failed Transitions**

A transition is unsuccessful if The Regional Transition Coordinator begins transition activities based on the date of the approval letter from the MFP program, receipt of the "Regional Transition Coordinator Acceptance Form", and receipt of "Informed Consent" (signed by the participant or guardian) and the participant does **not** move to the community for a minimum of one day. Unsuccessful transitions are those that fail to make it to moving day. Reasons for failure could include withdrawal from MFP, Medicaid/waiver ineligibility, hospitalization, decline, and death.

Payment through MFP for an unsuccessful transition will consider factors such as duties performed under the service definition and amount of time spent on the transition prior to move. Payment for an unsuccessful transition will be approved and paid by the MFP Program after consideration of the completion of the following duties:

- |    |   |        |
